Load Sheet for Commercial and Industrial Loads

This load sheet is to be completed by all prospective commercial and industrial members or their delegates. Appalachian Electric Cooperative will use this data to size electrical facilities and to calculate the Aid-To-Construction cost to be incurred by the member associated with their connection to the AEC system.

Name of Member:		THIS INFORMATION PROVIDED BY AEC	
Physical Address:	City:		
Mailing Address:		Account No.	
City, State, Zip:		Work Order No.	
SIC Code:		Service Order No.	

Please list the following data concerning new or additional loads.

Main Size:		Amps, continuous		Amp, interrupting ¹
Voltage:	<input type="checkbox"/> 208Y/120	<input type="checkbox"/> 480Y/277	Other: _____ Volts ___ Phase ___ Wire ²	
Service Requested:	<input type="checkbox"/> Overhead	<input type="checkbox"/> Underground		
Conduit Information:	Number:		Size:	
Number of Service Conductors per Conduit: _____				
Size of Service Phase Conductors:			Type of Metal(Cu or Al):	
Size of Service Neutral Conductors:			Type of Metal(Cu or Al):	
Type of Mechanical Attachment to Building if Required: _____				
_____ Amps	Heat Pump - Compressor	_____ KW	Miscellaneous	
_____ kW	Heat Pump - Strip Heat	_____ HP	Manufacturing Load	
_____ Ton	Air Conditioning (not Heat Pump)	_____ HP	Largest Motor (1Ø or 3Ø)	
_____ kW	Resistance Heat (not Heat Pump)	_____ Max Amp	Electric Welders (1Ø or 3Ø)	
_____ HP	Air Handling (not Heat Pump)	_____	Motor Starter Information	
_____ kW	Kitchen	_____ KW	Anticipated Total Max Load	
_____ kW	Lighting Load	_____ KW	Future Load	
_____ kW	Receptacles	_____ / _____	Date of Future Load	

Any equipment requiring special attention? _____

Hours of Operation: _____

Is operation seasonal? If so, how? _____

Estimated date service required: _____

Form filled out by (name): _____

Company: _____ Phone: _____

Name of Electrical Contractor: _____

Address: _____ Phone: _____

Other: _____

I certify that the above information accurately conveys the requirements and characteristics of the listed member electrical service request.

Signed: _____	Dated: _____
---------------	--------------

Copies: 0 Work Order, 1 Director of E&O, 2 Engineering

¹ Maximum available short circuit current is requested.

Please return this information sheet to AEC at the email provided.
